MEMORANDUM FOR :

Jack,

1. Thank you for your comment on the OMB Concept Paper. Our own ideas, as reflected in the paper, were well along before the OMB Concept was received. I believe OMB simply overlooked DCID/1/2 in writing its paper - an advisory piece only.

2. In summarizing the OMB paper for DCI consumption, your point was made. I'll mention to your interest in discussing the matter with OMB. Actually, however, we are not planning to seek further inputs to our "planning guidance" approach from OMB and we do not feel constrained to follow their paper except as it is helpful.
